Dr. Joshua Lederberg
Biology Department
Stanford University
Palo Alto, California

Dear Josh:

I have been instructed by Jim Nickson, Chairman of the Radiobiology Subpanel of the NRC to talk to you about the radiation aspects of space biology, and in particular specific missions.

I have to report on this by April 19, and I am wondering whether (a) you will be in the East before that date so that we could get together at less expense or (b) whether you could suggest some dates when I could spend an hour or two with you.

Kindest regards.

Yours sincerely,

Ernest C. Pollard
Professor of Biophysics

ECP/lc

cc: J. Nickson

Dear Ernie - I have no particular competence in this, but other members of the Space Science Board have. Why don't you call Colin Pittendrigh at Princeton?

John.

Pollard, E.C.
